Who Is Iza Malika?

Iza Malika is a painter based in Granada, Spain — a city where centuries of art, color, and soul converge. Her work spans acrylics, watercolors, mandalas, and portraits, each piece born from intuition, nature, and an impulse to translate feeling into form.

Her creative practice is not defined by technique alone — it is defined by presence. Painting is her way of slowing down, of listening to the world, of expressing what words often cannot reach.

BRAND PILLARS

Intuition

Art begins with a feeling, not a plan. Every brushstroke is an act of listening.

Nature

Rooted in the natural world — its patterns, textures, and quiet rhythms.

Connection

Art is more powerful when shared. Workshops, commissions, and presence.

Authenticity

Raw, honest, personal. No filters between the artist and the work.

BRAND VOICE

The brand speaks in quiet, poetic language — never loud, never salesy. It uses short sentences with emotional weight. It is warm, intimate, and slightly lyrical. Think of a handwritten note, not a press release.

*"For me, art is stopping time — a way to listen to nature,
to magic, to the quiet voice that lives inside."*

— Iza Malika

Colors

The palette is earthy and organic — inspired by the light of Granada, old pigments, and the warm tones of natural materials. It avoids cold grays and harsh whites in favor of warmth and depth.

PRIMARY PALETTE

	Cream #F5EDE0	Background · Canvas · Breathing space
	Ink #2A2018	Primary text · UI elements · Depth
	Rose #C4687A	Accent · Highlights · Emotional warmth
	Gold #C9A84C	Details · Dividers · Premium touch

SECONDARY PALETTE

	Green #4A7C59	Nature accent · Progress gradient
	Night #1C1C2E	Deep backgrounds · Overlays
	Mist #EDE8E0	Sun carousel bg · Subtle tint
	Lavender #EAE5F0	Magic carousel bg · Soft contrast
	Sage #E2EBE2	Nature carousel bg · Fresh accent

USAGE RULES

Cream is always the default background. Never use pure white (#ffffff) as a background — it reads cold against the brand's warmth. Ink replaces black. Rose is used sparingly for emotional emphasis. Gold is used only for fine details — never as a fill color on large areas.

Type System

A single typeface family is used throughout: Cormorant Garamond. This classical serif carries elegance, restraint, and a handcrafted quality that reflects the artistic nature of the brand. Weight 300 (Light) is the default. Italic adds poetry.

TYPE SPECIMENS

Display / Hero	Iza Malika	300 · clamp(3rem–6.5rem)
Section Heading	Creative Experiences	300 · clamp(2.4rem–5rem)
Sub-heading	<i>Every painting begins with a feeling.</i>	300 italic · clamp(1.8rem–3rem)
Body	I believe art begins with intuition. Painting is my way of slowing down.	300/400 · 1rem–1.3rem
Label / Caption	ACRYLIC ON CANVAS · 2024	300 · 0.72rem–0.9rem · tracked
Accent Italic	<i>stopping time — a way to listen</i>	Italic · Rose color

TYPE RULES

- Always use Cormorant Garamond from Google Fonts — no substitutions.
- Letter-spacing on headings: 0.04em–0.12em. Never tighter than 0.
- Labels and navigation links: uppercase, tracked generously (0.3em–0.5em).
- Line height: 1.2 for headings, 1.7–1.85 for body text.
- Font weight 300 is the default. Only use 400 for emphasis in body copy.

- Italic is used for poetry, quotes, captions, and emotional moments — not for UI labels.
- Never use bold or 700 weight in headings — the brand speaks quietly.

Buttons & Elements

Primary Button

Outlined style — no fill by default. Border draws on scroll (SVG clip-path animation). On hover: background fills with Ink, text turns Cream. Letter-spacing 0.38em, uppercase, Cormorant Garamond 300. Padding: 1rem 2.8rem.

Example: *'Discover the Collection'*

Secondary Button / Link

No border. Thin underline grows from center on hover (CSS ::after, width 0→100%). Opacity 0.45 at rest → 0.85 on hover. Used for navigation-style actions.

Example: *'↑ Discover another feeling'*

Navigation Links

Italic, 0.95rem, letter-spacing 0.08em. Opacity 0.45 at rest → 1 on hover. No underline. No decoration.

Example: *'Explore · Workshops'*

CTA Cards (Workshop section)

Large bordered cards with hover: background darkens to `rgba(42,32,24,0.06)`, `translateY(-5px)`, box-shadow grows. A 2px bottom border line draws across on hover.

Example: *'Interested in an artwork?'*

Oracle Buttons

Transparent with a subtle border. On hover/active: border turns Gold, card lifts with `translateY(-9px)`. Emoji + tracked uppercase label.

Example: *■■ SUN ■■ MAGIC ■■ NATURE*

Carousel Arrows

46px circular outlined buttons. Border Ink at 18% opacity → full on hover. Slight `scale(1.12)` on hover.

← · →

Language Toggle

Small outlined pill — 1px border, letter-spacing 0.22em, uppercase. Shows the language you can switch TO (shows ES when in EN, EN when in ES).

ES · EN

Visual Language

Photography is an extension of the brand's warmth and intimacy. Every image should feel like a memory — slightly warm, soft in contrast, and always honest. No over-edited perfection.

Artwork Photography

4:5 portrait ratio for individual works. Neutral warm background (close to Cream). Natural light only. Slight desaturation (10%) applied on the website for visual consistency — removed on hover to reveal full color. No logos, watermarks, or props in frame.

Workshop Photography

Candid, in-the-moment. Participants painting, laughing, creating. Wide shots for context (90vh hero), tight detail shots for the editorial mosaic. Warm tones. Real paint, real hands, real mess. No staged stock photography.

Portrait of Iza

3:4 ratio. Natural light, warm background. Relaxed and authentic — the image should feel like meeting her in person. Position: center top (object-position: center top on the website).

Color Grade

Warm highlights, slightly crushed blacks (never pure black). Golden hour tones where possible. The overall feel: sun-drenched, Mediterranean, alive.

What to Avoid

Stock photography. Cold or blue-toned light. Over-sharpened or HDR processing. White or gray backgrounds. Busy or distracting backgrounds behind artworks.

izamalika.com

The website is a single-page experience designed to feel like walking through a gallery — unhurried, immersive, and emotional. Every section reveals itself through scroll-triggered animations.

PAGE SECTIONS

Hero	Animated spiral canvas painting. Name and tagline appear with fade animation. Scroll hint indicator.
Manifesto	Large-format quote that reveals line by line on scroll. Sets the emotional tone.
About	Two-column layout: portrait photo + bio text. Slides in from opposite sides.
Oracle	Interactive emotional selector — Sun, Magic, or Nature. Opens themed artwork carousel.
Carousel	Gallery-wall style: center card full-size, adjacent cards scaled and faded. Swipe + arrows.
Portfolio CTA	Animated entrance with border-drawing button effect. Opens full artwork grid.
Full Gallery	Masonry-style grid of all works. Click any piece to open lightbox with WhatsApp CTA.
Bridge	Transitional quote: 'Art is personal. But it's even more powerful when it's shared.'
Workshops	Full-width hero photo → text block → feature cards → editorial mosaic → quote → CTAs.
Footer	Instagram link with  arrow on hover, tagline, and credits.

TECHNICAL NOTES

Built with pure HTML, CSS, and vanilla JavaScript — no frameworks, no dependencies. ES modules for JS. Google Fonts for typography. Fully compatible with GitHub Pages. Bilingual: English / Spanish (language persists via localStorage).

Extracted Values

These are the exact values used in the codebase. Use them whenever creating new materials, social graphics, or printed assets.

COLORS

border-medium	1px solid <i>rgba(42,32,24,0.22)</i>
progress-h	1.5px
cursor-size	12px · <i>border-radius 50%</i>

Brand Consistency

Do

- ✓ Use Cream (#F5EDE0) as the default background — always.
- ✓ Speak in quiet, poetic language. Let the work do the talking.
- ✓ Use Rose for emotional highlights, not for entire sections.
- ✓ Maintain generous whitespace — the brand breathes slowly.
- ✓ Use 4:5 ratio for all artwork images.
- ✓ Keep typography to Cormorant Garamond exclusively.
- ✓ Use the language of feeling: 'a moment', 'a feeling', 'listening'.
- ✓ When in doubt, be minimal. Remove rather than add.

Don't

- ✗ Never use pure white (#ffffff) or cold gray as a background.
- ✗ Never use bold headings — weight 300 carries more sophistication.
- ✗ Never use stock photography or staged images.
- ✗ Never use more than 2 accent colors in a single layout.
- ✗ Never center-align body text — only headings and quotes.
- ✗ Never use emojis in the brand voice (outside the Oracle UI element).
- ✗ Never rush animations — the brand moves at human pace.
- ✗ Never crop artwork to anything other than 4:5 or square.
